**ALMOST
1500 CUSTOM-
MADE RECIPES
CREATED
EACH YEAR**

SOREAL knows how to anticipate new consumption trends and is always on the lookout for new trends worldwide. This is the keystone of our innovation strategy: anticipate our clients demands by proposing exclusive, customised creations to them.

Innovation also includes packaging. Individual sachets, sticks, cups, mini bottles, pouches, etc... packaging is tailored to the requests of each client, without losing sight of the end consumer's expectations and environmental respect.

With us, innovation knows no limits: it can be about new flavours, textures, and ingredients — a search for new organoleptic qualities as well as new packaging methods.

from Alabama

Our marinades result from the know-how of France Culinaire Développement, French specialist in dehydrated aromatic spices and mix, and Soreal, French specialist in ready-to-use sauces for professionals. They are all made from an oily mix of rapeseed and shea butter, for a stable recipe with properties perfectly adapted to the foodservice.

Soy-Lime Marinade 🌱 768 ml

This recipe invites you to the characteristic Thai flavors (lime, ginger, chili) to bring a special touch to all your dishes.

Curry Marinade 🌱 768 ml

Oriental destination for this textured and very coating marinade with multiple flavors: ideal for fish, white meats and stir-fried vegetables.

Lemon-Thyme Marinade

🌱 768 ml

This classic recipe for cooking with powerful aromas of lemon holds its originality from its beautiful pieces of vegetables and herbs (thyme, herbs of Provence).

Barbecue Marinade 🌱 768 ml

Smoky and spicy, this marinade is perfect for accompanying meats before barbecue cooking. Its caramelized side will bring a touch of color and inimitable flavor.

White Barbecue Sauce (Alabama White Sauce) 🌱 768ml

Our White Barbecue sauce brings together all barbecue sauce lovers thanks to its spicy and smoky flavors. But its originality lies in its color and texture. This century-old recipe was born on the banks of the Tennessee in Alabama.

SONJAL CASING®

What about switching to a plant-based casing?

In our constant quest for new food solutions, and thanks to our unique and competitive know-how, we work to establish new innovative and technological processes on a daily basis.

So as to best meet food safety and manufacturing cost optimisation requirements, we have been committed to the development of an innovative coextrusion process for a 100% plant-based casing since the 2000s. This casing can be used for various food products, such as sausages. Sonjal Casing® also acts as a source of innovation for new applications, such as vegetarian sausages.

Sonjal Casing® is proved to be fully compatible with most of all equipment currently on the market.
